	Examiner TIMOTHY C. VANOY	Art Unit 1793	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Double Patenting

Claims 1-4, 6-13 and 15-19 are directed to an invention not patentably distinct from claims 1-12 of commonly assigned 12-160,939 for the reasons set forth in the previous obviousness-type double patenting rejection set forth in the previous Office Action.

The U.S. Patent and Trademark Office normally will not institute an interference between applications or a patent and an application of common ownership (see MPEP Chapter 2300). Commonly assigned 12-160,939, discussed above, would form the basis for a rejection of the noted claims under 35 U.S.C. 103(a) if the commonly assigned case qualifies as prior art under 35 U.S.C. 102(e), (f) or (g) and the conflicting inventions were not commonly owned at the time the invention in this application was made. In order for the examiner to resolve this issue, the assignee can, under 35 U.S.C. 103(c) and 37 CFR 1.78(c), **either show that the conflicting inventions were commonly owned at the time the invention in this application was made, or name the prior inventor of the conflicting subject matter.**

A showing that the inventions were commonly owned at the time the invention in this application was made will preclude a rejection under 35 U.S.C. 103(a) based upon

Art Unit: 1793

the commonly assigned case as a reference under 35 U.S.C. 102(f) or (g), or 35 U.S.C. 102(e) for applications pending on or after December 10, 2004.

In the Amendment filed on Dec. 9, 2008, the Applicants have submitted that 10-594,759 and 12-160,939 are commonly assigned, but this is not a showing that the conflicting inventions were commonly owned at the time the invention in this application was made.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a) Claims 1 and 4 appear to contain contradictory limitations. Claim 1 sets forth that the hydrogen sulfide is oxidized into sulfur dioxide . . . without pretreatment with alkanolamine. Claim 4 sets forth that the hydrogen sulfide is absorbed into a solution of alkanolamine, deadsorbed and then oxidized into sulfur dioxide. Thus, claims 1 and 4 appear to be contradictory.

Allowable Subject Matter

Applicants' claims 1 and 16 and the claims dependent thereon have not been rejected under either 35USC102 or 35USC103 because these claims have been limited

Art Unit: 1793

to reciting that the hydrogen sulfide is oxidized into sulfur dioxide by directly burning a mixture of methane and hydrogen sulfide as it exits from an extraction well, and this feature is not taught or suggested in U. S. Pat. 2,043,084 or any of the other references of record.

Applicants' claims 11 and the claims dependent thereon have not been rejected under either 35USC102 or 35USC103 because these claims are limited to reciting that the suspension of sulfur is disposed in a geologic structure, and this feature is not taught or suggested in U. S. Pat. 2,043,084 or any of the other references of record.

Response to Arguments

Applicants' arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TIMOTHY C. VANOY whose telephone number is (571)272-8158. The examiner can normally be reached on Mon-Fri 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley Silverman, can be reached on 571-272-1358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
